

Fact sheet

ORIGINAL SPARE PARTS

Original and quality-tested components ensure accuracy of fit, functional reliability as well as stable sorting performance and service life over the long term. With our original spare parts service, you can obtain spare parts in OEM quality worldwide – standard parts directly from stock and with express delivery on request. We support you in identifying the right components and ensure that your system remains operational in the long term by providing customised spare parts packages with stock recommendations. We also keep an overview of potential discontinuations for you and offer suitable alternatives in good time.

THE RESOURCE
SEARCH ENGINE
